INFORMATION

CÔTE BRASSERIE

This guide provides information on allergens intentionally present in each dish. This will be indicated with a “Yes” for each of the relevant allergen. “May contain” are indicated with a “M” for each of the relevant allergen.

Whilst every effort is made to minimise cross-contamination, we handle numerous allergens in our kitchens and due to the potential for cross contact, we cannot guarantee that our food is free from any allergens including tree nuts.

Where shared fryers are used, some dishes may contain traces of products from these fryers. These are highlighted with the word (Fryer) in the relevant cell.

Please check the allergen information every time you visit our restaurant as we may have changed the recipe or the ingredients of one or more of our dishes.

We are able to modify dishes to suit your dietary requirements. Please speak to the Manager on duty to place your order.

We use flour and other ingredients containing gluten in our kitchens, however processes and training are in place to ensure that all options on the GF menu are gluten-free.
